Dear John,

We wanted to write this letter to show our appreciation for a job very well done!! Back in December we received a quote from you to put a pool in our backyard and have been impressed ever since.

We had received two other quotes from other companies, but you not only provided a quote, but followed up with a phone call and made yourself available to us for any questions that we had. The other two companies did not!! We even had to chase one to receive our quote!

Everyone involved from your dad doing the digging to the guys working on the pool itself, were wonderful. They were very polite and always let us know what was going on and when they would return. If they couldn't make it because of weather, Reg always called us to keep us informed!!

Everything was cleaned up every day after a long day of work. They even came back and power sprayed our patio after they were done with the pool. My daughters are now enjoying swimming and we would recommend you to anyone thinking of getting any work done!!

Thanks again,

Karen and Mark Davie
